The image shows a Jupyter Notebook interface. At the top, there is a tab bar with six tabs: 'RPP_ex' (active), 'Launch', 'StateU', 'Annual', 'Income', and 'Income'. Below the tabs is a toolbar with icons for saving, adding, deleting, copying, pasting, running, and other actions. The main area is a code editor with a single line of code: '[]:'. The editor is set to 'Python 3'.
